

TOWN SWEEP AWAY
BY A LANDSLIDEONE HUNDRED LIVES LOST IN
TURKEY.

The City of Hudeya Was Overwhelmed by the Earth That Came From the Mountains—Ranchmen and Indians Kill Each Other in Mexico—Other News of Foreign Lands.

Constantinople, Sept. 25.—The town of Hudeya in the province of Yeman has been overwhelmed by a landslide from the mountain and hundreds were killed.

Hermosillo, Mex., Sept. 25.—A desperate battle was fought yesterday between ranchmen and Yaqual Indians in the mountains south of this place. Five Indians were killed and several wounded, while three ranchmen were killed and five wounded.

London, Sept. 25.—It is announced that, with the sanction of the Czar, a Russian bank, with large capital will be open for business soon at Peking, with a branch at Shanghai. Some of the most prominent financiers and merchants in Russia are interested in the scheme, which has been secretly canvassed. The charter has just been issued. The enterprise is regarded as another indication of Russia's determination to wrest the commercial as well as the political supremacy in the far East from England. Trading emissaries of Russia have freely assisted the government of China with money, and have already penetrated the interior of China, where they are supplanting the British. An article which appears in the Globe indicates the alarm with which the English view the situation. This article says:

"Russia will unquestionably extort from China the right of way through Manchuria for the trans-Siberian Railway. A struggle for supremacy in Asia is upon us. If British influence does not go under altogether we must bear our part in the old masterful, English spirit without delay. Thanks to our good relations with Japan, we ought to be able to work that power to our advantage politically and commercially."

LABOUCHERE'S WAIL.

Says British Subjects Have Suffered in Hawaii.

London, Sept. 25.—Henry Labouchere's Truth protests in its issue of this week against the apathy of the English press and parliament at the sufferings of British subjects during the revolution in Hawaii, and mentions particularly the case of the Ashford brothers, who were Canadian barristers, and who were imprisoned by President Dole's government upon the flimsiest evidence. One of them, Volney Ashford, writes to Truth, suggesting that William Greig was sentenced to thirty years in prison by a military commission in Hawaii out of pique at his being part owner of Panning island, where it has been proposed to land the Canadian and Australian cable.

Rejects England's Demand.

Shanghai, Sept. 25.—It is reported here that China has rejected the British demand for the banishment of the ex-viceroy of Szechuen.

An imperial decree which has been issued appoints Li Hung Chang and all the members of the Tsung Li Yamen to formulate an extraordinary treaty between China and Japan.

Rothschild Stops Buying Gold.

London, Sept. 25.—Yesterday the settlement in mines absorbed attention. Other markets were quiet. Mining stocks are still booming. Americans, though closing under the best prices, are bullish in London, and stock for the most part is held in good hands. The rates at the settlement today probably will be the same as last time. Rothschild has stopped buying gold.

China Pays an Indemnity.

London, Sept. 25.—A special dispatch from Shanghai says that 30,000,000 taels in silver has been deposited at Shanghai by the Chinese government. This money is to pay the supplementary indemnity required by Japan as a consideration for the evacuation of the Liao Tung peninsula.

Will Not Visit Russia.

Vienna, Sept. 25.—The statement that President Faure will attend the coronation of the czar is emphatically contradicted in St. Petersburg and here. Court etiquette does not allow other monarchs and heads of states to attend such ceremonies.

Grasshoppers in Kansas.

Wichita, Kan., Sept. 25.—A dispatch from Winfield, Kan., says: "The air yesterday was full of grasshoppers flying southward. About 2 o'clock many of them began to fall. On examination they proved to be regular old Colorado red leg. On looking up at the sun the air seemed as full of hoppers as it did during the memorable year of 1874." The presence of myriads of these insects has been noted at various points in southern Kansas recently, and some alarm is felt lest they deposit their eggs and prove a scourge next season.

Rescued After a Night's Exposure.

Mackinaw City, Mich., Sept. 25.—The schooner Queen City went to pieces on Hog Island reef Monday. Her crew were rescued.

TAMMANY WINS.

Her Delegation Seated at the Syracuse Convention.

Syracuse, N. Y., Sept. 25.—At 12:25 o'clock yesterday Chairman Hinckley of the state committee called the state Democratic convention to order, and the Rev. A. H. Fahnestock offered prayer, asking for peace and unity. Perry Belmont was made temporary chairman. Contrary to expectations, when the New York district was reached in the call of delegates there was no public notice of a contest until the clerk had read the entire Tammany delegation. During the reading the Tammany men looked at each other as if amazed at the lack of contest, but the amazement was ended when just as the clerk started Niagara ex-Secretary Charles Fairchild arose and said: "I present the contest for thirty-five seats held by the New York delegation just read."

There was a burst of applause that lasted for some minutes and then the chairman said: "Referred to the committee on contested seats when appointed." At 1:50 the convention adjourned until 10 o'clock this morning.

The committee on credentials at a late hour adopted a resolution by a vote of 32 to 7 making the representation four-fifths of a vote for Tammany hall and one-fifth for the state Democracy. The resolution adopted declares the Tammany hall organization regular and entitled to seats in the convention and entitled to recognition at all future conventions as regular.

The following is an outline of the platform so far as adopted by the committee last night:

"We affirm that self-government and home rule in cities involves local option in excise and other regulations which require local public sentiment for their fair enforcement. To the liquor business, as to many lawful businesses, are applicable considerations of public safety, order and quiet. We recognize, therefore, the necessity and the right of proper regulations for Sundays and other holidays, upon which general business is suspended and large numbers of people, especially women and children, are passing in the streets. What special restrictions of this character are needful for each of the various and widely differing communities of this state should be left to its citizens to determine.

"We favor a sound currency and a safe banking system, which can be based only on a single standard of value—the standard of the civilized world. We oppose the free coinage of 60 cents' worth of silver into a dollar.

"The government should go out of the banking business and should limit itself to safeguarding banking methods which will extend throughout the country the money advantages of the cities. The legal-tender notes, born of the necessities of a struggle for national existence, should be withdrawn. Their presence in the currency is a menace to the steadiness of business and prevents the due use of silver dollars already coined.

"We commend our democratic president for his wise steps to restore the public credit and to maintain the national honor, for his pioneer work in tariff reform, for his steady improvement of civil service, for his firm stand in the maintenance of law and order when the public peace was in danger, and for the dignified policy which has secured American rights abroad without yielding to clamor raised by selfish adventurers for embroilment in foreign relations."

For a Deep Waterway.

Cleveland, O., Sept. 25.—The first annual convention of the international deep waterways convention was called to order yesterday by O. A. Howland, of Toronto, the international president. The visitors were welcomed by the mayor and other citizens, and then President Howland delivered his annual address, taking for his subject "International Comity and Co-Operation." The report of Francis A. Flower, of Wisconsin, which followed, dealt with the progress of the deep waterway movement, of which he is executive secretary, since its inauguration.

Denison B. Smith, secretary of the Toledo Produce Exchange, spoke on "The Necessities and Advantages of a Ship Canal to the Ocean." After citing the growing interest manifested in all directions and the necessity for cheaper freight rates, Mr. Smith demonstrated the urgent necessity of deeper water and larger vessels.

Evidence Against the Coffins.

Indianapolis, Ind., Sept. 25.—Documentary evidence in the shape of large bank books, ledgers and balance sheets plays a conspicuous part in the trial of the Coffins yesterday for complicity in the wrecking of the Indianapolis National bank. Frank Reed, the secretary of the company, denied that he had ever drawn any drafts upon firms that did not owe the amount for which the draft called, but was forced to admit the contrary when several large drafts were shown him. He admitted also that in appraising the property he included a gallon jug, three dust brushes, 1,000 New Year's cards and 150 feet of speaking tube.

British Sealer Seized.

Washington, Sept. 25.—Captain C. L. Hooper, of the revenue cutter Rush, has reported to the Secretary of the Treasury the seizure of the British schooner Beatrice, on August 20, within the prohibited zone, as fixed by the Paris award. Captain Hooper himself boarded her and found 140 sealskins, the taking of only sixty of which was recorded.

BIG MILL BURNED
AT CARNAGIE, PA.COSTLY FIRE RAGED EARLY
THIS MORNING.

Walde's Flour Plant and Martin's Lumber Yard Destroyed While a Number of Private Residences Were Damaged—Philadelphia Suffers a \$250,000 Loss by Fire Yesterday.

Carnegie, Pa., Sept. 25.—Fire this morning destroyed Walde's big flour mill and Martin's lumber yard, besides damaging several private houses. The loss is \$60,000.

Philadelphia, Pa., Sept. 25.—Shortly after 8 o'clock last night fire was discovered in the six-story brick building No. 116 Chestnut street, occupied by Charles J. Webb & Co., dealers in yarns and woollens, and within half an hour no less than six adjacent buildings were in flames. The district is given up almost entirely to large woolen and rag warehouses, and the Webb building was flanked by the five-story chemical works of Charles Lenning, at 112 South Front street. The inflammable substance with which the structures were stored spread the blaze with amazing rapidity, and a general alarm was sent in.

The Webb building had been gutted from roof to cellar almost before the firemen could put the first stream upon it, and their energies were then directed to saving the adjoining buildings. The flames first spread to No. 118 Chestnut street, occupied by H. B. Heston & Co., commission merchants, and burned through to Eagle street, a narrow thoroughfare in the rear. The blaze then extended on the right to the buildings of Buckingham & Parison, cotton yarns, No. 120 Chestnut street, and James E. Mitchell, woollens, at No. 122; and on the left Richard A. Blythe, at No. 114, and Keyser, Fisler & Co., at No. 110. In these buildings, however, the flames were largely confined to the rear. At 10 o'clock the fire was still burning fiercely, but the active work of the department had prevented its further spread. The loss will be fully \$250,000.

HINSHAW TO TESTIFY.

Accused Minister Will Take the Stand on His Own Behalf.

Danville, Ind., Sept. 25.—The defense in the Hinshaw murder trial introduced expert testimony as to how long deceased remained conscious after receiving hgr injuries. Dr. Albert Store of Indianapolis testified that it could be possible for one to walk and talk after receiving such wounds as did Mrs. Hinshaw. Mrs. Vanilla Cornwall, who lives across the street from the parsonage, said she was awakened on the night of the tragedy by hearing two pistol shots. She ran to the front door and saw the accused lying on the ground across the street and thought she saw two men running away. On cross-examination she would not testify positively. The defense introduced evidence to show the defendant's disposition and treatment toward his wife. This fact was conceded by the state. It is thought that the defense will complete its examination by Thursday. Mr. Hinshaw will probably be placed on the witness stand to-day. The defendant's father and mother were placed on the witness stand yesterday. When the mother, who is 72 years of age, gave her name judge and jury were both affected.

THE HAVERHILL'S LOSS.

No Probability of the Mystery Being Cleared Up.

Washington, Sept. 25.—General Dumont, supervising inspector of steam vessels, has just completed an investigation of the loss of Barneaght light, fifty miles south of New York, of the steamer City of Haverhill with all on board the night of March 28 last. The report of the investigation indicates that the wreck of the City of Haverhill will go down in marine annals as one of the unfathomed mysteries. The investigation was one of more than usual importance, because of certain claims that might have resulted in an inter-These arose from the theory, deeply lodged in the breast of the widow of the captain of the City of Haverhill, and persistently adhered to by her, that the vessel was under suspicion by the Spanish authorities of being intended for the use of Cuban filibusters and had been destroyed by Spanish agencies.

Loomed to Own Its Waterworks.

Duluth, Minn., Sept. 25.—By an overwhelming vote—almost three to one—the proposition to have the city purchase the water works system for \$1,800,000 was defeated at special election yesterday and the proposition to have the city build a rival plant was carried by practically the same vote. It is probable that the water company will enjoy the city from selling the bonds and building and thus throw the whole matter into the courts. If the company loses it is the general opinion that it will offer its plant to the city for a fair price, about \$1,000,000.

For a Wholesale Hanging.

Fort Smith, Ark., Sept. 25.—The notorious Buck gang, composed of Rufus Buck, an Indian; Lucky Davis, negro; Sam Sampson, Macma Jolly and Lewis Davis, Creek Indians, have been convicted in the United States court here of various capital crimes. They will all be hanged as soon as Judge Parker fixes a day for the event.

BEATING THE MARSH
FOR TRAIN ROBBERSOFFICERS HAVE A CLUE TO
THE WAUPACA GANG.

Tracks are Found Leading to the Wet Ground and There Lost—Milwaukee Railroad Receivers Want to Resign—Big Green Bay Steamer is Overdue—Other State Specials.

Bancroft, Wis., Sept. 25.—Last evening fresh tracks made by four men were found leading from the marsh, where the Wisconsin Central train robbery occurred up to and across the railroad track, where the trail was lost. A large posse of men in charge of officers is in the extensive marsh making as thorough a search as possible. It is believed by the detectives in charge of the case that some men are in hiding in the marsh, but whether they are the men wanted or ordinary tramps who just now infest that section in considerable numbers is a question yet to be determined.

Receivers Want to Resign.

Milwaukee, Wis., Sept. 25.—H. C. Payne, T. F. Oakes and H. C. Rouse, receivers for the Northern Pacific railway, tendered their resignations to Judge Jenkins yesterday. The judge will take the matter under advisement and decide Friday, Sept. 27. The receivers say a road like the Northern Pacific can only be administered, as it has been done, through one single court. They hope that the conflict of jurisdiction and the appointment of separate sets of receivers, which will greatly increase the expense of the road and demoralize the service, may be averted.

Big Lake Steamer Overdue.

Green Bay, Wis., Sept. 25.—The Lackawanna steamer Grand Traverse, from Buffalo to Green Bay, is thirty-six hours overdue here and nothing has been heard from the boat since it was sighted passing Mackinac about noon Sunday. The boat is commanded by Captain William Kelley of Buffalo and carries a crew of about twenty. There is great anxiety as to the fate of the boat, though the agent of the Lackawanna company thinks she is lying in the shelter of some island.

Wisconsin Congregationalists.

Appleton, Wis., Sept. 25.—The fifty-fifth annual session of the Wisconsin Congregational convention opened here yesterday with 300 delegates in attendance, representing 233 churches. G. H. Baxter was elected moderator. The convention will continue in session until Thursday evening, and will be followed Friday by a state convention of the woman's foreign missionary secretaries of the state.

Decide Not to Rebuild.

Green Bay, Wis., Sept. 25.—The Murphy Lumber company has decided not to rebuild its extensive mills, which were burned last week. This entails a loss to the city of \$125,000 paid annually in wages and a loss to the Chicago, Milwaukee and St. Paul railway of \$400 to \$500 a day for hauling logs in the winter and early spring.

THE BIG IRISH CONVENTION

More About the Meeting Being Held at Chicago.

Chicago, Sept. 25.—Representative Irishmen met here yesterday for the opening of the great convention of Irish patriots. Early in the morning the visiting and local delegates held meetings for the purpose of discussing plans for organizing a national league, the object of which will be to secure freedom for Ireland. Another feature which is now attracting the general attention of the delegates is the election of a permanent president. John F. Finerty now holds that position temporarily. It is expected that Michael Davitt and O'Donovan Rossa will take a very pronounced part in the convention.

A flood of telegrams from all parts of the United States voiced the sentiment that Ireland must be freed, no matter how or at what cost.

John J. O'Connell, chairman of the executive committee, called the convention to order. He explained the causes leading up to the calling of this convention; that the people of this country had lost faith in the Irish parliamentary party. In the wishes of the speaker the day would not be far distant when an Irish republic, based on the lines of the greatest republic on earth, would be established, to which end this convention would lend invaluable aid if its work were fittingly and properly done.

John F. Finerty, acting chairman of the convention, was then introduced by the chairman of the executive committee. Mr. Finerty rapped for order and called upon Secretary Sutton to read the official call for the convention. At the outset the question of a shorthand report was raised by a delegate from New York, but as no preparation for such an expense had been made it was decided that the minutes of the meeting should be left to the secretary. Chairman Finerty addressed the meeting at the close of the reading of telegrams.

After Mr. Finerty's speech and a motion had been carried to appoint committees on credentials, etc., a recess of an hour was announced for the purpose of selecting these committees. The motion provided that each committee should be composed of delegates from each of the states represented in the convention.

It was 3 o'clock when the meeting was called to order again. A dispute then arose over the question of making the temporary organization permanent, and

finally the question was left over till the morning.

The stage was handsomely draped with the stars and stripes and the green flag of Erin. A handsome painting of Robert Emmet occupies a prominent place in the foreground, and portraits of a number of other Irish patriots were hung up at the back of the stage.

AID FOR INSURGENTS.

Formidable Expedition Leaves This Country for Cuba.

Boston, Mass., Sept. 25.—There is intense excitement among the Cuban residents here who have followed the course of the revolt in the island. The reason is the receipt of information that the most formidable expedition of those which have been fitted in this country has succeeded in getting out to sea safely and that, if all has gone well, it will be on hand to materially aid the fighting Cubans in their next battle. Every one of them is now anxiously awaiting to hear that the redoubtable Gen. Enrique Collazo—for it is he that is in charge of the expedition—has set foot on Cuban soil. And with him are hundreds of the flower of the Cuban youths, with a force of officers to restrain the foolhardy recklessness of youth and inexperience. But if the men are picked so are the weapons which the little steamer carries as part of her cargo. There were stowed away 2,500 rifles, 900,000 rounds of ammunition and 600 machetes. Besides all this, each man had his personal arms and there were 400 pounds of dynamite, with the material to manufacture death-dealing bombs.

RECEIVE THEIR MONEY.

Great Britain Pays Out the Indemnity from Nicaragua.

Managua, Nicaragua, Sept. 25.—All but \$2,500 of the \$77,500 which Great Britain exacted from Nicaragua in May last for the expulsions of Consular Agent Hatch and other citizens of Great Britain, who had been accused of intrigues hostile to the interests of the republic, has been paid over to the men who were expelled. Edwin Hatch received \$22,500, I. W. Cuthbert \$12,500, John Brownrigg, Henry Brown and John O. Thomas \$7,500 each, Hubert Boda, S. H. Hodgson, John Taylor, Washington Glass and Markland Taylor \$2,500 each, Capt. Banard \$1,500, G. P. Hall and Mr. Moody \$1,250 each and Messrs. Sykes and Gate \$500 each. These men were all residents of Bluefields, Rama or Pearl Lagoon. Cuthbert was for many years the chief of the organization of Jamaica negroes and mulattoes in the Mosquito reservation, who practically ruled the territory, defying the authority of the Nicaraguan government.

FREIGHT RATES REDUCED.

Important Agreement Reached Between Transcontinental Roads.

San Francisco, Cal., Sept. 25.—C. F. Murr, general freight agent of the Southern Pacific company, announces that the transcontinental railroads have practically agreed to consummate an arrangement for the making of west-bound freight rates from what is known as the central traffic territory on the basis of the same rates as prevail westbound from New York city, subject to a minimum of 75 cents.

This means a reduction in west-bound rates to the amount of the local rate now applying from the point of shipments to either New York or Chicago, and will be shared by all the roads forming the through lines between points in the central traffic territory and California.

Talmage Will Reply Saturday.

Brooklyn, N. Y., Sept. 25.—Rev. T. De Witt Talmage said yesterday, with reference to the call extended to him by the First Presbyterian Church at Washington, that he had received two or three other calls of a like character. The call from Washington, however, was very important and presented a very inviting field, but he wanted a little more time, he said, to carefully consider and weigh the matter, that he might be positive as to his duty. He said he would give a definite reply before the close of the week, probably Saturday.

BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

Possibly the championship of 1895 will turn on the error made by Shortstop Sullivan of the Philadelphia club in the ninth inning of yesterday's game with Baltimore. It let the champions tie the score. It now looks as though there was little chance of the Baltimore losing the three games that they will have to lose to make it possible for Cleveland to tie.

Valuable Mica Mine Found.

Duluth, Minn., Sept. 25.—A valuable mine of mica has been discovered on miles above Kettle Falls. The vein is imbedded in sandstone granite walls and gives promise of being an exceptionally rich find. The work of development is being pushed, and already specimens are being mined in which the sheets will measure six by eight inches. A company has been organized and the necessary capital is forthcoming.

The Gold Situation.

New York, Sept. 25.—A private dispatch from Philadelphia received in Wall street says: "The leading local banks have offered to deposit \$1,500,000 gold in the treasury. Negotiations with the assistant treasurer here are now pending."

THE MINERS DEMAND
AN ADVANCE IN PAYACTION TAKEN AT THE MAS-
SILLON CONVENTION.

New Scale That the Workmen Will Submit is Designed to go Into Effect on October 1—St. Louis Committee Agree on a Scale by Which the Men Will Get More Pay.

Massillon, Ohio, Sept. 25.—At the coal miners' convention which is now in session here, the delegates this morning decided to demand an increase of sixty cents per ton after October 1.

St. Louis, Mo., Sept. 25.—The committee of ten, consisting of five coal miners and five operators of western Illinois mines, appointed at a conference held last Tuesday to decide the question of an advance in the scale of miners' wages in the Belleville district, met at East St. Louis yesterday and made a report favorable to the scale asked for by the miners, providing that the using of "top scales" at the mines is ignored. Miners met and agreed to accept the conference report. It is said that the adoption of the new scale will raise coal 2 cents a bushel.

TALK OF A STRIKE.

Employees of the Wabash Railway System Are Indignant.

St. Louis, Mo., Sept. 25.—The Post-Dispatch declares that there is a big strike brewing on the Wabash railway, which threatens to tie up the entire system from Toledo to Kansas City. It says the company has been quietly ferreting out the members of the various brotherhoods in its employ, and that one by one they have been discharged because they are members of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen, Order of Railway Trainmen, Order of Railway Conductors, or the Switchmen's Mutual Aid association. An engineer said that the lodges of all five orders at Decatur, Springfield and Moberly would take the matter up and demand the re-instatement of all men who are not discharged for good and sufficient cause.

Methodists Gather at Elgin, Ill.

Elgin, Ill., Sept. 25.—All day yesterday Methodist ministers who will be present at the fifty-sixth annual session of the Rock River conference were arriving in Elgin and the brethren of the city and other citizens have received them with open arms. Bishop Goodsell, who is to preside at the conference, did not attend the reception, being fatigued with travel. He is being entertained by Mr. and Mrs. D. C. Cook, who will give a reception in his honor this afternoon from 4 to 6 o'clock. It is thought the question of admitting women to conferences will be decided in the affirmative.

Durrant Prosecution Closes.

San Francisco, Cal., Sept. 25.—The case of the prosecution in the trial of Theodore Durrant closed yesterday. The day was spent in putting the finishing touches to the testimony against the accused. Dr. C. E. Barnum, demonstrator of anatomy at Cooper Medical college, testified that the blocks placed under the dead body of Blanche Lamont were laid in the same manner as under a subject in a dissecting-room.

Fighters Refused a License.

Austin, Texas, Sept. 25.—Application was made yesterday to Comptroller Finley by the tax collectors of McLennan and Hayes counties for prize fight licenses, which were promptly refused by the comptroller at the instance of the attorney general, who, in a written opinion, still contends that Judge Hurt's opinion delivered at Dallas last week in regard to the prize fight law is not binding.

Child Kills His Brother.

Birmingham, Ala., Sept. 25.—The 11-year-old son of John Thompson at Blossburg shot and killed his 8-year-old brother yesterday. The elder boy, was of unsound mind and had a penchant for using weapons. The two were left alone in a room with a pistol with the above result. The murderer had frequently said he would kill his brother.

Mexican Boundary Commission.

Washington, Sept. 25.—The Mexican boundary commission will meet at the state department on Oct. 11 next. As Lieutenant D. D. Gaillard, one of the members, has been assigned to duty in Washington in connection with the aqueduct work, it is assumed that the commission has nearly completed its labors.

Des Moines Methodist Conference.

Indianapolis, Sept. 25.—The Des Moines conference of the Methodist Episcopal church meets here today. Bishop Nind presides. Over 500 delegates will be present.

Paper Mills Burned.

Middletown, N. Y., Sept. 25.—Walker & Sons' paper mills at Montgomery were destroyed by fire last night. The plant originally cost \$125,000.

Senator Elkins Hurt.

Wheeling, W. Va., Sept. 25.—Senator Stephen B. Elkins fell from a bicycle and sprained his ankle badly. He has gone to New York for surgical aid.

BELOIT MILLS PLAN FOR A RUSH OF WORK

SEVERAL FACTORIES ARE BEING ENLARGED.

Indications are that the winter will be the busiest one in several years—Janesville couple secretly wedded at Emerald Grove—Other news from Rock County.

Beloit, Sept. 25.—There is a decided increase in activity in business in Beloit this fall, and the outlook indicates one of the busiest winters in the trades line that this city has experienced in many years. The Beloit Iron Works are adding one hundred feet to their new machine shop to accommodate their business. This will give them a machine shop over three hundred and fifty feet long by sixty wide and a foundry about eighty by one hundred feet.

John Thompson & Sons are adding a third story to their already immense plow works to accommodate their increasing business. The factory covers several acres and now the proprietors are compelled to build in the air. The new addition will be about one hundred and fifty by sixty feet.

Mr. Van Tassel, of Durand, Ill., has leased the Bishop flour mill, and is preparing to do a big business in his line, while the Berlin Machine Works are rushed with business, as is also the Eclipse Wind Engine Works. Fairbanks, Morse & Co. have all the business they can handle in their large shops on the hill. At present they are having a big run on gas engines.

H. Rosenblatt & Sons are nearly ready to move into their new factory on the west side, which is four times as large as their present quarters, being 225 feet long and two stories high, with an annex 100x60 feet.

The Barrett paper mill, the largest concern of its kind in the west, is running night and day to keep up with its orders.

WEDDED AT EMERALD GROVE.

Janesville Couple Are Keeping Their Marriage Secret—Other News.

Emerald Grove, Sept. 24.—A Janesville couple were married by our village parson last Saturday evening. We cannot give the names as they wish it kept "shady" for a while. Mrs. Mattie Blunt, of Huron, South Dakota, is visiting relatives in and about the village. Walworth county fair will be patronized by this vicinity. Rev. G. Hammond and Rev. Hewey, of the Presbyterian church on the Prairie, exchanged pulpits last Sabbath. The warm days of last week terminated Sunday evening. A cool wave with rain visited us about 6.

Corn cutting is finished for this year and now all the crops are out of the way of frost. Mr. and Mrs. John Rohel, of La Prairie, buried their infant child in our cemetery last Sunday. A good Racine bushel basket at Gillies & Jones for twenty cents. A course of four fine entertainments is promised us by the Y. P. S. C. E. of this place providing they can raise the necessary amount by selling tickets. Some two hundred dollars are requested to insure the course. Will Hauke has been hauling his winter's wood through the village. Mrs. Charles Doubleday will leave Wednesday for South Dakota where she will visit her daughter in Dell Rapids. She will be accompanied by her niece and will stop over a few days at Boyden, Iowa. Mr. and Mrs. Robert Lilburn will visit the Illinois state fair at Springfield this week.

FAIRFIELD'S PASTOR'S TERM ENDS.

Gov. B. T. White Has Been at That Place Four Years.

Fairfield, Sept. 24.—Next Sabbath closes the four years' pastorate of Rev. B. T. White, of this place. Andrew Meryl has moved on the Joseph Johnson farm. Miss Bertha Clark is spending a few weeks with Delavan friends. Elmer Serl is attending the Leland Sanford university at Palo Alto, Cal., the coming year. He writes that he is well pleased with the school and its surroundings. Mr. and Mrs. Heddetch and daughter, Mrs. Davis, are visiting friends in this vicinity. B. Conry has added a line of crockery to his trade. H. Bowdash has taken the Palmyra place for the next year. Painters are now at work on D. R. Williams' house, his recent improvements add much to the beauty and convenience of his home. Miss Frances Woodman and William Dykeman were united in the holy bonds of matrimony at the home of the bride's parents, on Thursday evening, Sept. 19, by Rev. Mr. Leek, of Clinton. The bride and groom have a host of friends in this vicinity who wish them a prosperous voyage on the journey of life. After a trip to Milwaukee and the state fair, the young

Storm at Clear Lake.

Clear Lake, Sept. 24.—There was a severe wind storm in this section Sunday, and some damage was done to trees and fences. Tobacco is all in the shed ready for Jack Frost to come. There is a great deal of corn in the shock this year, on account of hay being scarce. There is not much plowing done as yet; some of the farmers have sown rye for fall and spring feed. The weather changed suddenly Sunday. Little Glen Stockman is visiting his grandma and grandpa at Janesville this week. Mrs. G. Stockman expects to go to Milwaukee to visit her brother Martin Gilbertson. Mr. Laurence has sold his farm in Dakota and is expected back in a couple of weeks.

NEW RAILROAD A TROLLEY LINE.

Electricity Will Be the Propelling Power Disputes Say.

Janesville's new railroad—that sounds good, don't it—will be a trolley line. Speaking of the road, A. J. Toolen, one of the Chicago backers said: "The project has been talked of for some time. It was felt that a first class electric line from Chicago to the summer resorts north would meet a general demand and pay the promoters. We propose to give both cheap and quick transportation. There is plenty of capital back of the project, and we intend to push the road to a completion just as rapidly as possible."

Survey of the route will be begun at an early date, and, if the company's plans materialize, the road will be ready for service by the opening of the lake resort season next summer.

The route of the projected line is not as yet specifically laid down, but it is proposed to run from some central point in Chicago, to Madison, via Janesville, with branch lines to all intermediate lake resorts. If found advisable a line will be run also to Milwaukee and the entire system further extended.

DOCTOR'S MEET HERE IN DECEMBER

Central Wisconsin Medical Society Votes to Gather in the Bower City.

The next quarterly meeting of the Central Wisconsin Medical Society will be held in Janesville some time next December the exact date not being decided on and local physicians will leave no stone unturned to make the session a thoroughly successful one from all points of view. This decision was reached at the Beloit meeting.

Nothing Succeeds Like Merit.

The annual report of the commissioner of insurance of Wisconsin, just issued, shows that the American Mutual Accident association, of Oshkosh, transacted a much larger accident business in 1894 than any similar company doing business in the state. It is also shown that the company is carefully managed in the interest of its policy holders. The five year accident policies of this company have met with great favor, not only in Wisconsin but throughout the northwest. —Oshkosh Times.

Running No Chances.

You take no chances when you buy shoes of us. If they fail to give proper service we are here to make them satisfactory. We guarantee the wear of every shoe we sell. Could you ask for more? Brown Bros. & Lincoln.

Cotton States and International Exposition at Atlanta, Ga.

For the above event the Chicago, Milwaukee & St. Paul Railway will sell excursion tickets from Sept 15 to Dec. 31, 1895, good for return until including Jan. 7, 1896. The rate of round trip will be 75 per cent. of double lowest first class fare.

LACK OF CASH KEEPS THE DOORS CLOSED

Y. M. C. A. BUILDING SUBSCRIPTIONS REMAINS UNPAID.

If the Money Pledged Was Collected in the Handsome Edifice Could be Put to Use at Once as the Conditional Subscription of \$5000 Would Then be Due—Rally at Johnstown.

"That is a fine Y. M. C. A. building" remarked a traveling man to a Gazette reporter this morning as he glanced out of the window of the Grand Hotel office, "but why isn't it open? I have a Y. M. C. A. card in my pocket and I would like to go over and look it through or 'take a flyer' on the hanging rings."

The reporter hesitated. A Gazette man hates to lie, and no good citizen ever says anything to hurt the town he lives in if he can help it. That's why the traveling man's question remained unanswered.

But there is no use in mincing matters.

Janesville's handsome Y. M. C. A. building is closed simply because Janesville people do not pay up their subscriptions. Many who agreed to pay a certain yearly sum have not made good that promise, consequently the association still owes money. The arrangement made with the ten subscribers who agreed to pay \$500 each, was that their checks should be drawn when the building was free from debt.

Pledges Still Unredeemed.

But very little remains unpaid and the managers have worked hard to collect it in, but their efforts do not meet with much encouragement. Hence the \$5,000 that would cancel all outstanding bills and open the doors of the most worthy institution that Janesville ever possessed, is still in the dim distance—so near and yet so far. This fact is to be generally regretted. Bower City people ought to take pride in the opening of this handsome building that would be a pleasant elevating resort for the young men who now—perhaps—spend a good part of their time on the streets if not in places less helpful than the public thoroughfares. Of course times are hard and money is scarce, but can Janesville people afford to let this fact cost them the future of even one young man who may go astray, when the Y. M. C. A. building with its gymnasium, its good reading matter and its elevating influences, might lead him into the path that leads to success and usefulness? Ponder on that fact, and if you have subscribed to the fund, strain every nerve to pay up. It will be money well spent.

Mrs. Thomas Austin's recent subscription of \$200 has helped matters wonderfully, and if those who owe minor subscriptions will pay, the \$5,000 will become available and the building can be opened at once.

Milwaukee's Prompt Action.

The action of Janesville people is in marked contrast with that of the residents of Milwaukee. During the big fire in the Cream City, the fine Y. M. C. A. building that had just been completed and represented an expenditure of \$75,000, was burned. Did Milwaukee's people let it stay in ruins long? No. They realized the value of such an institution and almost before the smoke had cleared away, preparations for rebuilding it were under way.

The work of equipping the bathroom in the Janesville building was begun this morning and all modern conveniences will be used in fitting it up.

A jolly party composed of members of the Y. M. C. A. left the city last evening for Johnstown where they were given a warm welcome. A rousing meeting was held in the church and attended by the citizens of the village. A number of speeches were made and the Y. M. C. A. male quartet furnished excellent music. The young men are loud in their praise of the hospitality extended, especially by Mrs. Thomas Austin and sons who did all in their power to make it pleasant for the Janesville visitors. Those present were Secretary J. C. Kline, H. L. Van Vleet, William Yates G. E. Totten, John Harrington, C. Carpenter and A. H. Williams.

WATCHES PASSED THROUGH FIRE

Dials Fused to a Jet Black By the Intense Heat.

Curious relics found in the Leyden House ruins were two gold watches. They were picked up from what had been a bed of live coals. The heat had been so intense as to turn the white enamel a jet black, but it had not cracked the crystal which had been protected by the case. The watches both showed fourteen minutes to 1 o'clock, the time of the fire.

GOOD COLT WON A FAST RACE

Hinbert Wilkes Paces to Victory at Dubuque, Ia., Yesterday

Hinbert Wilkes, the good pacer owned by Soverhill & Porter, won the 2:23 class pacing race at Dubuque yesterday, in straight heats the time being 2:18½, 2:16½ and 2:17½. James Scott drives the colt, and his mile in 2:16½ in the second heat reduced his previous record seven seconds. From Dubuque Scott will take the pacer to Freeport.

LEO MAYER ENTERTAINS FRIENDS

Pleasant Evening Spent at the Grand Hotel Last Night.

Leo Mayer proprietor of the "Bee Hive" entertained a party of gentlemen friends in a very pleasant manner at the Grand Hotel last evening. After refreshments had been served, the cigars were lighted and sociability and cards made the midnight hour come all too soon to suit the partakers of Mr. Mayer's generous hospitality.

BRIEF BITS OF LOCAL NEWS.

STAR of America.

STAR of America is a fine 10c cigar.

TEN per cent off any child's suit bought at our store Thursday, Zeigler.

STAR of America is manufactured by J. L. Spellman.

FIFTY styles of chamber sets, every one of them can be matched at Wheelock's.

SMOKERS come and buy one of the STAR of America and if dissatisfied we will gladly refund 10c for the same. It costs but 10c to get one at J. L. Spellman's.

WE are laying special stress upon our Pascha soft hat. Its something new this season's pattern and is especially adapted to business wear. Come in and examine it. Frank H. Baack.

WE claim the Star of America is the very best 10 cent cigar in the market and every box has the B. L. on it and union No. 290 furnish the men to make them.

MADAME PAUL, the noted clairvoyant and fortune teller of New York city, is in the city for a few days only, and may be seen at the Park hotel. See her advertisement elsewhere in this paper.

OPEN EVENINGS—For the convenience of those wishing to transact business with The Gazette evenings, the office will be kept open until 9 o'clock every Tuesday and Friday evening.

WE are having a great trade on our \$3 stiff hats. Can give them to you in several makes in most any shade and guarantee them to be of the latest block, and made of as good material as is ever found in this price hat. Frank H. Baack.

WE have had Henney vehicles that have run for six and seven years brought to us in apparently as good order as when they left the factory, and without an expenditure of any money on them at that. They stand the wear we guaranteed. F. A. Taylor.

DO you need a pair of driving gloves, or are you short on working gloves? We have an elegant line of Mocha buckskin gloves bought at a bargain, that can be sold for \$1 a pair. They have always gone at \$1.50. Great bargains. Frank H. Baack.

WHERE repairs on the buggy become necessary, then the trouble begins. You take a cheap buggy, and when some part of it requires fixing, there is always some other part giving out. The Henney is a wearer. Years may roll by but the Henney rolls on just as firmly. F. A. Taylor.

NOTHING so distressing as a hacking cough. Nothing so foolish as to suffer from it. Nothing so dangerous if allowed to continue. One Minute Cough Cure gives immediate relief. C. D. Stevens.

For Sale Cheap.

My house, barn, and four full lots on Hickory street, just off Fourth avenue. Will make it a bargain to some one. Enquire at Gazette office.

H. F. BLISS.

A. G. Bartley of Magic, Pa., writes: "I feel it a duty of mine to inform you and the public that DeWitt's Witch Hazel Salve cured me of a very bad case of eczema. It also cured my boy of a running sore on his leg." C. D. Stevens.

Her Face Her Fortune.

A pretty face might win its way to some rich man's heart, but nice fitting shoes are one of the qualifications that maintain the old boy's affections. We have the shoes that fill the bill. Brown Bros. & Lincoln.

It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine; better results; better try it. C. D. Stevens.

It is a truth in medicine that the smallest dose that performs a cure is the best. De Witt's Little Early Risers are the smallest pills, will perform a cure, and are the best. C. D. Stevens.

RUGER NOT LIFTED OVER MILES'S HEAD

JANESVILLE MAN TO COMMAND GOVERNOR'S ISLAND.

Report That President Cleveland Would Advance Him to the Position of Senior Major General in Command and Successor to Schofield Proves to be Incorrect.

At one time it was said that General Thomas H. Ruger was likely to be advanced to the rank of commander-in-chief of the armies of the United States, over the head of General Nelson A. Miles, but recent developments have proved the falsity of the story. It was said that President Cleveland did not like General Miles, on account of his course during the Chicago strike, but that General Ruger stood high in his estimation. The fact that General Ruger was called to Washington to revise the army regulations added color to the story, but it is now said that General Miles will succeed Gen. Schofield as senior major-general in command, while General Ruger will undoubtedly move to Governor's Island and assume command of the Department of the East. This will obviate any further change in department commanders.

This being the case there will go to New York in place of Gen. Miles, a native of New York. Gen. Ruger was born in Lima, N. Y., in 1833, and stood at the head of his class at West Point. He left the Engineer Corps a year after joining and began the practice of law at Janesville. He was here when the war began, and volunteered his services.

He was mostly with the western armies, but accompanied Sherman to the sea as a brigadier-general. During the draft riots in New York city he was in command of the troops.

He was made a colonel in the regular service, and for seventeen years commanded the Eighteenth Infantry. He was engaged in delicate service in the south during the reconstruction period and later election troubles. He acted as superintendent at West Point and as commander of the Infantry and Cavalry School at Leavenworth.

A NEW CHARTER.

None of the Janesville aldermen are disposed to act hastily, and they give ample notice of the project to adopt the uniform charter. The city has a special charter that has been very satisfactory. The chief argument against it is that amendments can no longer be made to meet changing municipal conditions. The state law leaves but one way of effecting changes—to engrave on the old charter complete chapters of the new. That leads to contradiction, doubt and embarrassment.

For two years the matter of charter amendments has been before the council. Most of the aldermen have come to believe that substituting a new charter for the old is wiser than attempting patch work, but they are anxious to follow public sentiment in the matter and to give full heed to suggestions from responsible sources.

SILENCING THE NEGRO.

South Carolina is preparing to limit the franchise, but nobody expects the white man to be affected. The only question is how to get rid of the negro. As will be remembered the constitutional provision on this point is very plain and difficult to evade. It does not interfere with the right of a state to establish an educational or property qualification, however stringent, so long as such qualification is made applicable to both races. If South Carolina chooses to provide that none of her people shall vote except those who are graduates of colleges, or who are worth not less than \$10,000 she has authority to do so on the condition only that she shall make no discrimination because of a difference of color. But the fact is that she, in common with the other southern states, has no desire to introduce new tests in this relation for any other purpose than that of making this prohibited discrimination. Her pretense to the contrary deceived no one.

BANKS TO THE RESCUE.

Much praise is due the banks of the country for coming to the rescue of the treasury now that the bond syndicate has quit. The necessity for such aid, however, should not have arisen. The administration was blamed, and very justly, for delaying the latest bond sale until a suspension of gold payments at the New York sub-treasury was threatened, for then the demand for gold became so urgent that it had to be obtained immediately, and at worse terms than would have been secured if the reserve was \$20,000,000 or \$30,000,000 higher, and more time time were allowed to receive bids. The loan was of immense and immediate benefit to the treasury and to business, but it would have had a still better effect if it had been obtained earlier.

DON'T SHIFT CONSULS.

Uncle Sam's standing in other lands will be bettered by placing diplomatic officers below the \$2,500 grade under civil service rules. There is every argument against frequent changes in these positions. Only by familiarity with his field can a consul be of value to his country. He must gain the confidence of his diplomatic associates; he must study the commercial possibilities; he must acquire a knowledge of local peculiarities and prejudices, before his work can possibly count.

Mr. Cleveland has acted wisely in making the change. Had not he first filled the diplomatic service with political pets, he would get more credit for the reform; but whatever is said of his motives, the result is a theme for congratulation.

When General Sherman himself so far as to ask aid from Cleveland it showed how desperate his condition

had become. Cleveland's silence has not made the prospect any better.

Silver men are sliding down from the 16 to 1 ratio and say 20 so 1 will do. The nearer they come to the current value of 30 to 1 the better their chance will be.

No wonder Boss Croker praises the Tammany brand of personal liberty. That sort was all that saved him from the form of personal restraint in vogue at Sing Sing.

Ex-Senator Ingalls and Mary Ellen Lease are both making the sod fly in Kansas. What a time there will be when those two fluent conversationalists meet!

England wants to be a partner in building the Nicaragua canal. Under no administration but Cleveland's would such an proposition be dreamed of.

Nobody will have a chance to urge President Cleveland's removal for pernicious activity in behalf of any of the state democratic tickets this year.

California Forest Fires.

Santa Cruz, Cal., Sept. 24.—Forest fires are sweeping through hundreds of acres of forest in this vicinity. Railroad traffic is interfered with by trees falling across the tracks. The fire is the worst that has ever visited Santa Cruz county.

AN ORDINANCE to adopt the provisions of Chapter 326 of the Laws of 1895, entitled "An act dividing cities into classes and providing for their incorporation and government," as amended by the Laws of 1893, and as further amended by the Laws of 1895, in lieu of the special charter of the City of Janesville.

The mayor and common council of the City of Janesville do ordain as follows:

Section 1. The provisions of Chapter 326 of the Laws of 1895, entitled "An act dividing cities into classes and providing for their incorporation and government," as amended by the Laws of 1893, and as further amended by the Laws of 1895, in lieu of the special charter of the City of Janesville, do ordain as follows:

Section 1. That part of section 23 of chapter 326 of the Laws of 1895 as amended by the laws of 1893 and 1895, which provides that the common council may by a two-thirds vote dispense with the offices of controller and board of public works, and provide that the duties of such officer or board be performed by other officers or boards of said city or by the common council or a committee thereof; and also that part of section 25 of chapter 326 of the laws of 1895 as amended by the laws of 1893, which provides for the election of the controller by the people, are hereby adopted in addition to the provisions of the special charter of the city of Janesville.

Section 2. This ordinance shall be in force from and after its passage and publication, which publication shall be for three successive days.

Passed Sept. 23, 1895.

WORSE THAN USELESS.

Do Not Use Cathartics For Indigestion.

The commonly used remedies are worse than useless, as they do not remove the cause. Cathartics are injurious, for although they move the bowels for a time, their action weakens the digestion and thus increases the difficulty they are intended to cure.

Persons using Stuart's Dyspepsia Tablets will not be disappointed as their use not only properly digests the food, but gives proper assimilation and cures constipation by producing the proper quantity of bile.

The fact that they are used so largely by physicians is a great point in their favor, and many physicians treat their cases of indigestion almost entirely by these tablets or the same ingredients.

The only difference being that when dyspepsia apply to a physician for them he charges you two or three prices for them besides his advice. Whereas if you go to your druggist he will sell you Stuart's Dyspepsia Tablets for only 50 Cents per box.

They may also be had by mail by enclosing price to The F. A. Stuart Co., chemists, Marshall, Mich.

George's Cold.

George comes down to breakfast with a swollen visage. Whereupon mamma says to the four-year-old: "Why, George, darling, don't you feel well? Tell mamma what the matter is?"

George (full of influenza) replies: "No, I don't feel well. Bofe of my eyes is leakin', and one of my noses don't go."—Alex Sweet, in Texas Siftings.

ARMED GUARD RIDES ON "THE LIMITED."

C. & N. W. TAKE PRECAUTION AGAINST "HOLD UPS."

Uniformed Detective With a Winchester Repeating Rifle Accompanies the Train in Order to Give Bandits a Hot Reception—Much Valuable Matter Goes Through Here.

When the Chicago & Northwestern limited train pulled into Janesville at 9:30 o'clock last evening a man with a uniform on and a Winchester rifle stepped from a coach, walked briskly to the "head end of the train" and carelessly leaned on his rifle while the express packages and mail bags were taken on and put off. People passed him with hardly a glance, thinking he was a soldier who wished to stretch his legs on the platform. But he wasn't.

That man's one ambition in life was to put a bullet through a train robber.

It sounds rather odd to say that passenger trains running through Wisconsin in this year of our Lord 1895 should have to carry armed guards but such is the case. The man with the uniform and the gun with the hole in the end of the barrel large enough to stick your little finger in was hired for protection against armed bandits with a penchant for applying dynamite to express safes and borrowing passengers' watches and cash.

Work the Guard Does.

His duties are simple in "time of peace." Then all he has to do is take his station near the engine when the train stops at a town, and see that no one chloroforms the baggage-man or steals the pouch in which the express messenger carries the money shipments. If a tramp climbs onto the "blind baggage" the guard is supposed to apply the butt of his gun to "hobo's" anatomy, and compel him to vamoose. This is all in time of peace. But when hostilities are declared it's different. If any one should stop the train in Mole's stone quarry, the guard would be expected to find out about it, and if the gentleman with the red light proved to be a bandit, the guard would be expected to drill him as full of forty-four caliber holes as the time would permit, and the more the better. In order to facilitate his work in this line, the company furnishes each guard with a Winchester repeating rifle with a dozen cartridges in the magazine that are guaranteed to send one ball through as many robbers as are accommodating enough to get in line.

Good Grounds for the Move.

There are good grounds for this action on the part of the railroad company. The Chicago & Northwestern is not in the habit of paying men to look pretty, so they must consider an armed guard a good thing to have around, or else he wouldn't be there. Since the bold job done at Waupaca, where a Wisconsin Central train was held up, the railroad in this section begin to realize what advantage the robbers have over the trainmen and baggage-men. The proceeds of a successful holdup would pay a guard for a long time they argued, so Chief of Detectives Riley was ordered to place a detective armed with a rifle on trains running between Chicago and St. Paul. An immense amount of valuable mail and express goes through on this line and if the vestibule was held up successfully the company would be a heavy loser in consequence. Whether or not the move is a permanent one is not known at the local office of the company.

Great Clock Display.

The greatest display of cloaks ever brought to the city is that shown by Mr. Lewis, of Joseph Beifeld & Co., at Bort, Bailey & Co's store. The lot consists of \$10,000 worth of cloaks and wraps, \$4,000 worth of which are fur. The assortment is enormous, and the prospective purchaser of winter garments could not well leave the store without having made a selection. The stock includes all the correct styles, and is attracting many people to its inspection.

Forecast: Cloudy and slightly cooler by Thursday night.

The temperature as recorded by S. C. Burnham & Co. during the last twenty-four hours was as follows:
7 a. m. . . . 54 above
1 p. m. . . . 53 above
Max. . . . 54 above
Min. . . . 56 above

POKER GAME RAIDED AND PLAYERS FINED

POLICE ARREST A CROWD AT ENNIS' SALOON.

Fines of \$25 and Costs or \$26 70 in All Were Assessed Against Each of the Five Defendants Most of Whom Could Pay—Ennis Also Brought to Time—Court News.

"Ten better!"
"Call!"
"Raise ten!"
"Pass!"
"Call!"
"!! ! ? ? ? * * *"

Officer Hogan listened to that kind of talk for a while this morning as he stood at the door of a room over Ennis' saloon on South River street. Then he decided to take a hand too. And he did. When he came away he had several hands besides a box of chips and a number of prisoners. When the municipal court room was reached, City Attorney McElroy was summoned to draw complaints charging the men with breaking a city ordinance by indulging in a game of chance—to wit: "draw poker"—and thereby gambling, against the peace and dignity of the municipality. The men arrested were:

Harry Haskell, John Dawson, Wallace Hallett, John Scarliff, John Cobb and William Wait. All pleaded guilty to the charge and were fined \$25 and costs each, or \$26.70 in each case. A commitment was issued in Haskell's case, all the others either paying the fine or making satisfactory arrangements for payment.

Saloon Keeper Ennis was also notified to be in court this afternoon to answer to the charge of keeping the place in which the game was played, but at 3:30 o'clock his case had not been reached.

The fact that a good deal of poker had been played of late by a certain clique had been known to the police for some time, but just where and when to find the culprits at work was another story. People in the saloon denied that there was a card game going on in the room upstairs when Officer Hogan insisted on investigating on his own hook.

"We didn't find them just where we expected too," said Chief Acheson this morning, "but we got them just the same."

The state versus Charles Jenkins, who is charged with assaulting Charles Ward, an employee of W. T. Vankirk, was taken up at 2 o'clock.

LITTLE DANGER NOW FROM DIPHTHERIA

CENTER AND JANESVILLE CASES ARE HELD IN CHECK.

Victims Are All Doing Well and the Supposed Causes of the Disease Have Been Done Away With—None of the Children Exposed Have Been Attacked.

Residents of the towns of Janesville and Center are now breathing freer. The diphtheria cases, which, at one time, promised to develop an epidemic, are now under control, owing to the excellent work of Health Officer Thomas Little of the town, and Dr. R. W. Edden, of this city, the physician in charge. There is now but little chance for the spread of the disease, as the quarantine is strict and the cases of a mild type. The daughter of Mr. and Mrs. Kruse is doing nicely as is also the child of Mr. and Mrs. Saeinn, while the case at the home of Mr. and Mrs. Lenz is progressing as well as could be expected. None of the other children that were exposed have as yet been attacked and the chances are now that they will not. It was said that the disease might have been caused by the use of impure water, as one of the families was in the habit of using rain water that stood in an open barrel, filled from the roof. All probable causes of the scourge have been abated by the town board of health, and with the strict quarantine regulations, there is little chance that any further trouble will result.

Reports late this afternoon were not so encouraging, as it was stated that the Kruse girl was much worse.

IN GOOD STYLE.

WELL FITTING GOWNS.

How to Cut a Bodice to Insure a Perfect Fit.

It should be borne in mind that the pieces of a bodice ought to be cut lengthwise of the goods and with the cross thread horizontal at the waist line. This may seem a superfluous piece of information to many amateur dressmakers, but there are women who get into inextricable difficulties with their work through ignorance of just such simple rules.

After the garment is basted and tried on the necessary letting out or taking in should be done at the under arm seam, where the front joins the first side piece. The darts and curved seams should not be

CHANGEABLE SILK GOWN.

altered if it can be helped, as it is difficult to make the changes alike on both sides and any difference in the curve is noticeable.

For woolen and silk materials sewing silk should be used in stitching the seams and a rather fine machine needle. The underarm seams may be left until the last, as after the other seams are stitched and pressed open the bodice may often be taken in a little more. The seams should be frequently and deeply notched to keep the edges from drawing, and the latter may be overhanded or bound with narrow taffeta ribbon.

The whalebones or steels used for stiffening the seams must not be too long. Bone is preferable to steel, as bone may be scraped thin at the ends and rounded off, as well as shaped to the curved seams by heating and bending it.

A dress form such as dressmakers use is a great help in home dressmaking, and these forms may now be obtained in all sizes at small cost. They are of the greatest assistance in arranging draped bodices or placing trimmings and save much time and worry.

Changeable silk continues in popularity, and the sketch shows an autumn toilet of this goods in poppy red and silver gray. The bodice is entirely plain. The fitted bodice of plain red taffeta is covered by a blouse composed of alternate bands of guipure and red velvet, with a yoke of velvet applied with guipure. The sleeves of changeable silk have a deep cuff of velvet covered with guipure. The hat accompanying the gown is of black felt and is trimmed with large black ostrich plumes and knots of red velvet.

JUDIC CHOLLET.

HOW TO CUT A BODICE.

Hints About Fitting a Waist—Cut the Lining First.

In making a bodice the lining should be cut first. Unless the pattern is one cut to the individual measure, and so certain to be right and necessitate no alteration to speak of when the garment is fitted, it is best to first try it by cutting a bodice out of firm lining goods, not that to be used in the corsage itself, and by basting and fitting this trial bodice ascertain just what changes are necessary. This saves the risk of making mistakes in cutting the dress lining and goods.

However much the bodice is to be draped or gathered, it should always be made over a plain, close fitting lining, in

STREET GOWN.

order that it may be properly held on the figure and retained in shape. The similar pieces of the two sides should be cut out together by laying the pattern on a double thickness of the material. This insures their being exactly alike. It is a difference in shape between the pieces of the two sides that ought to be alike that makes the seams appear crooked and the bodice twisted, and no amount of fitting nor alteration can rectify this trouble if the bodice is once cut wrong.

The darts should never be carried up over the curve of the bust, as in that case they defeat their own purpose and produce a fullness over the chest where it is not needed and a tightness across the swell of the figure where the fullness was meant to be. This is not only unsightly in itself, but flattens the form most uncomfortably and ungracefully. At the top the darts must be tapered off to nothing without leaving a little fold at the end of the stitching. The fuller the bust the larger the darts must be, but large darts must not be cut for a slender figure, as they will give a baggy effect at the top.

The picture shows a street costume of dress green crepon. The bodice skirt opens on each side over a tapering panel of black satin embroidered with beads and spangles. Choux of green satin are placed midway of the panels. The bodice has a blouse front of black satin with three plaits, the middle one embroidered like the skirt panels. A belt of black satin is tied at the right side. The sleeves, which are close from wrist to elbow, have a large puff above, which is shirred lengthwise, giving a winged effect.

Who does not know women and young girls who are continually in tears? Who always see the dark side? Who have frequent fits of melancholy without any apparent cause? The intelligent physician will know that it is some derangement of the complicated and delicate feminine organs. The young girl suffers, bodily and mentally, in silence. There is undue weariness, unexpected pain, unreasonable tears and fits of temper.

Dr. Pierce's Favorite Prescription exerts a wonderful power over woman's delicate organism. It is an invigorating tonic and is specific for the peculiar weaknesses, irregularities and painful derangements of woman.

Careless, easy-going doctors frequently treat their women patients for biliousness, nervousness, dyspepsia, liver or kidney troubles, when the real sickness is in the organs distinctly feminine, and no help can come till they are made perfectly strong by the use of Dr. Pierce's Favorite Prescription.

SCHOONER'S ENTIRE CREW LOST

The E. R. Williams Sinks in Lake Michigan Sunday Afternoon.

Escanaba, Mich., Sept. 24.—The schooner E. R. Williams sank in the gale Sunday night and all on board are supposed to be lost, as it would be impossible for them to reach shore in such a furious sea. Following are the names of the crew so far as known:

BENNETT, MAGGIE, Cleveland, O.; stewardess.

HUNTON, —, Cleveland, O.; captain.

UNKNOWN, mate and four seamen.

The cargo of the Williams consisted of 570 tons of iron ore from this port consigned to a Toledo furnace. The Williams was in tow of the steamer Santa Maria, and both boats left at 3 o'clock yesterday afternoon.

The sea was running heavily from the south on Green bay, and the schooner, laden deep in the water, made bad work of the head sea. The Santa Maria headed from the Poverty passage into Lake Michigan, and up to 9 o'clock that night the schooner's lights could be seen by the crew of the Santa Maria.

Shortly after that time the tow line parted and the Williams disappeared from sight. The Santa Maria cruised around for some time trying to find the Williams, but it was not until daylight that her mast was discovered sticking out of the water under St. Martin's island. No trace of the crew could be seen. The Santa Maria returned here and Captain E. E. Rathburn reported the wreck.

The Williams was built in 1873, and rated 293 gross tons. She was owned by W. L. Fay of Elyria, O., and was probably without insurance. The iron cargo was fully covered.

Did You Ever Fall Over a Precipice, Or hold up the Washington Monument on the pit of your stomach—in a dream? Did you ever wake up in a cold sweat caused by some horrid phantasy? If so, the wisest thing that you can do is have done to renew your slumber, undisturbed by the nightmare, would have been to take some Hostetter's Stomach Bitters, which would have tranquilized you and relieved the indigestion, which was, perhaps, the author of your hideous dream. In-somnia, nightmare, indigestion are easily remedied by the Bitters. Resort to it, also, if you are troubled with chills and fever, liver or kidney trouble, constipation, neuralgia or rheumatism. If you have lost your appetite don't go to the expense of advertising for it, but take the Bitters. They will "soothe digestion, wait on appetite and health on both." Just before retiring is a very suitable time to swallow a wine-glassful.

A Small Family

Could not do better than to either correspond or see us on the sale or rental of the house and lot we have facing Riverview Park. The house is heated by steam radiator in every room, and fine Magee range in kitchen, connected with hot and cold water, bath room, water closet, stationary laundry tubs, perfect sewerage and shades for all windows, newly papered, hard wood floor. In fact, is a model house and just right for a small family. Carriage house line passes the door and within two and a half blocks of the street cars. We are the boys for business. Will sell, rent or trade to some one. Lowell Hardware Co., Milwaukee street.

THURSDAY,

AT

ZIEGLER'S.

For the boys' benefit as well as for the parents' purse, we inaugurate tomorrow morning, a series of sales in our children's department. A straight **10 per cent. reduction** on any suit, overcoat or reefer in children's wear purchased tomorrow. As an example, No. 2321, one suit combination in double breast coat, two pairs of pants, winter yacht cap to match, \$3.50, 10 per cent off---35c, your price--\$3.35.

Every suit in this department is marked in plain figures and every suit you can buy just 10 per cent. less than the price, if purchased tomorrow. We have everything from the faultless little middy sailor's and Chester Juveniles for the small tot, to the school and dress suits for the larger boys. Our children suits run in ages 3 to 15 years, and we claim we have the largest stock in the city, having one large floor, 20x60 feet devoted exclusively to children's toggery. So you can imagine you can find a stock to select from.

You will find every little suit, a good, honest make and an honest price. If you want the stuff that is being freely advertised as bargains we tip you frankly you cannot get it here. We will not sell goods that we cannot truthfully recommend. Attend this sale if possible. You will find just what we advertise. We are after your trade, and we will get it if you
